

Introducing the world's first mobile app to assess brain health and fitness

ELITE SPORTS

HEAVY INDUSTRY

HEALTH CARE

PERSONALIZED

Aspire bases its cognition scores on measurements of each brain's unique cognitive function range

USE IT WITH MUSE™

Our iOS app quickly and automatically syncs with Muse, the leading consumer EEG headband

HEALTH ASSESSMENT

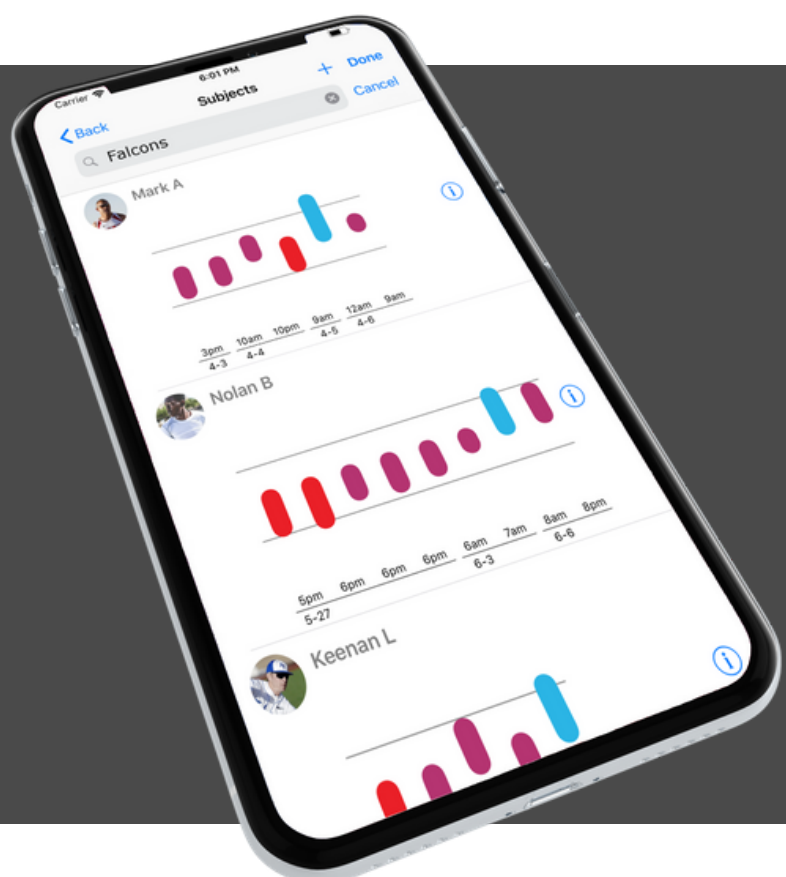

Our exclusive dataset for cognitive performance lets you see how a user's brain compares to population-level norms

HIGHLY ACCURATE

Aspire's unparalleled accuracy is derived from over five decades of neuroscience research

ASPIRE MEASURES YOUR COGNITIVE FUNCTION AND HELPS YOU OPTIMIZE YOUR BRAIN'S PERFORMANCE

Aspire helps you pursue two goals:

PERFORMANCE OPTIMIZATION

Aspire helps you identify which factors enhance and which factors hinder brain performance

FATIGUE ASSESSMENT

Find out if a user's brain is operating well enough to carry out important tasks safely

History of Personal Cognition Scores

EEG Waveform Visualization

Personal Routine Fatigue Tracking
